Dear Valued Customers,

Climate Action Statement

As a fabless semiconductor company, we are committed to addressing climate change by reducing our environmental impact across our supply chain. While we do not operate manufacturing facilities directly, we work closely with our foundry partners and suppliers to adopt energy-efficient practices, transition to renewable energy, and ensure compliance with the Paris Agreement and the Montreal Protocol. We continuously engage with our supply chain to drive carbon reduction, promote sustainable design, and innovate products that enable energy efficiency in end-use applications.
