Dear Valued Customers,

### Counterfeit Material Protection Policy

Axiro Semiconductor Private Limited and its subsidiaries ("Axiro") is committed to ensuring the integrity of its semiconductor products and global supply chain. The Company will not permit the use of counterfeit, unauthorized, or non-genuine materials in its operations.

To uphold this commitment, Axiro has established the following principles:

- Axiro will source materials only from trusted and verified Original Component Manufacturers (OCMs), Original Equipment Manufacturers (OEMs), or their authorized distributors.
- Axiro will not knowingly procure or use counterfeit, suspected counterfeit, refurbished, or unauthorized substitute parts.
- Axiro will require its Suppliers to maintain complete traceability records and provide evidence of authenticity upon request.
- Axiro will require Suppliers to notify it immediately of any suspected counterfeit material in their supply chain.
- Axiro will enforce accountability, requiring Suppliers to replace counterfeit material and bear the costs of related corrective actions.
- Axiro will maintain processes for both internal escalation and external reporting of suspected or confirmed counterfeit material, including notification to customers, industry bodies, or regulators as applicable.
- Axiro will ensure that employees are trained and periodically refreshed on counterfeit risk awareness, detection practices, and escalation procedures.

This Policy reflects Axiro's zero-tolerance stance against counterfeit materials.
